Gentlemen

We are taking the liberty of returning by today's post "Greek Coin Hoards", as by some trick of the mind, our client says what he had intended ordering, was

"Gold & Silver Coins by Head"

If you have this, please advise us the fact before sending, as we do not want to make a second error.

Yours truly
Robson & Adee

Gentlemen:

We are cancelling your bill for the monograph you returned.

I know of no such book by Head as the one for which you ask. His Manual of Greek numismatics is entitled"Historia Numorum", but it is an expensive volume issued by the Oxford Press.

Very truly yours,

Secretary
